

User Account Management Service - my.uniwa.gr

Last update: 12/5/2023

Description

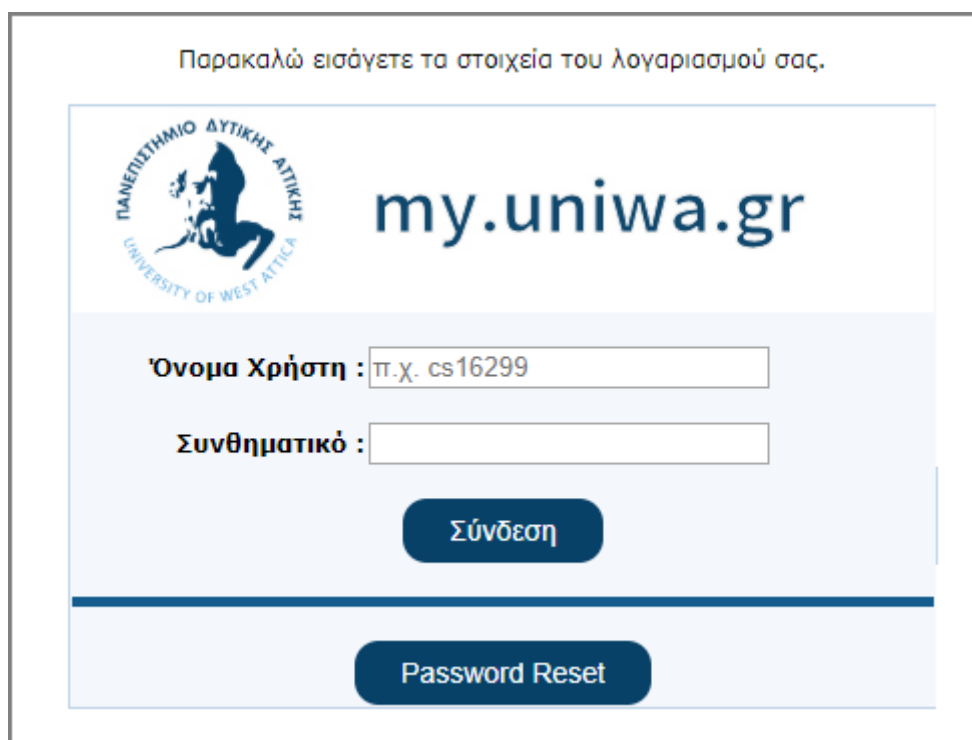

The User Account Management Service is a web-based service which give the user the ability to:

- change their password
- add or change their account recovery mail.
- Reset their account password.

Change password instructions

If a user wants to change his account password, he should follow the below steps:

1. Open using a browser the page <https://my.uniwa.gr>
2. Input his account credentials and press "Connect".

3. Then he should go the tab "[Change Password](#)", insert the new password (twice) and press the "Update" button. If the new password complies with the system restrictions, then the message "Your account is updated!" will appear at the top of the page.
